

BAW 2024

INDOUS SCIENTIFIC CONFERENCE

27th to 30th March 2024

VENUE: SINCLAIRS RETREAT KALIMPONG

INDOUS Scientific Conference-2024

Frontiers in Disease Biology Conference

Frontiers in Disease Biology Conference to be held between 27th to 30th March 2024 at Kalimpong

The primary goal of the Conference is to bring together the microbiologists and immunologists in a single setting to discuss their research in this area as well as explore avenues of potential collaboration. Conference will be covered in the broad topic of; Sensing Pathogens; Cell-autonomous immunity; Virus / bacteria/fungus host interactions; Pathogen defenses against innate immunity; Pathological consequences of inflammation. Conference will also welcome topics on the interaction of microbial communities with their host. Armed with this information, attendees of different countries will work towards formulating research questions and experimental directions that will enhance the development of new concepts on pathophysiology, a discipline stands in front of biggest challenges of its history. In genomic and post-genomic era, it extended far beyond the constraining limits of its historical name and embedded many aspects of Patho-chemistry, Immuno-pathology, Patho-biophysics and Patho-informatics, inter-mingling with Translational Medicine. This Conference will involve 75-80 basic researchers, clinical scientists and trainees working in the areas of field of Microbiology (virology, bacteriology and fungi-ology) and immunology and pathobiology as well as tumor immunology and cancer immunology to cover the inflammation, immunity and pathobiology of deadly diseases.

Contact Info

Prof. Jayasri Das Sarma

Mob : +[91] 9748642423

Dial 033-6634 0000 and then provide the extension number 1202 when asked

Address: Indian Institute of Science Education And Research Kolkata, Mohanpur - 741 246, West Bengal, India
