

Guidelines for the talks and posters

IGRG32 at IISER Kolkata

1. Please strictly follow the time allotted for the talks. The time mentioned in the program includes question-and-answer as well.
2. Specifically for parallel session talks, the allotted time is 10 minutes which includes 2 minutes of questions and answers.
3. The flash talk is for 2 minutes, and there is no question-and-answer session.
4. The flash talk will have two slides including the title/cover slide.
5. We will share links to upload talk slides at least 12 hours before the scheduled talks. Ideally, we will prefer slides in pdf. The nomenclature for the file should be **"First_name_Last_name.pdf"**
6. The people who will present flash talks, will also present posters in the poster sessions.
7. The people who are selected for the posters only, will display posters in the poster sessions.
8. There are three poster sessions, and people who are presenting posters (either after flash talks or only posters) are expected to present in all three sessions.
9. The posters are ideally printed in A0 size, preferably in landscape mode. The participants must bring a printed copy. We will NOT have printing facilities. When A0 size printing is difficult, the participants may combine several A4 size papers to make a full poster.
