

Trip plan to Havelock and Neil Island

9th morning Cruise Ship ride to Havelock Island and Boat ride to Elephant Beach Snorkelling Trip. Elephant Beach is approximately 20 minutes by boat from the Havelock Island dock. This destination offers beautiful white sand beach along with an amazing coral reef which starts at a depth less than a metre. The white sand beach and the blue green water at the Elephant beach is appealing for almost every traveller. The boat ride to Elephant beach passing through the light house is amazing.

Water activities in *Elephant Beach*:

- Snorkelling
- Scuba Diving
- Sea-Walk/Coral watching
- Coral – Watching by Glass Boat

Ferry to Radhanagar Beach; The Famous white sand beach of legendry beauty, the pride of Andamans. In Radhanagar beach people can simply laze around in the secluded beach or settle down in the warm sands with your favourite book and a lazy drink. Intermittently, you can take a dip into the warm waters. At places, you will find heaps of broken shells and miniature dead corals which will fascinate you with their rich array of colours. The beauty of the beach is picture perfect and attracts a lot of international tourists apart from wide influx of Indian tourists. Radhanagar Beach in spite of being so beautiful and famous is not very crowded at any time of the year.

Nighty stay in a Hotel in Radhanagar Beach

10th Morning: Sunrise in Kalapathar Beach. Kalapathar Beach is a beautiful beach offering a stunning view of the Bay of Bengal and a long stretch of white sand with big boulders of black stone on the beach and underwater.

10th morning after breakfast Cruise Ship ride to Neil Island

Rock bridge walk: Natural rock formation in Laxmanpur beach

This rock bridge is a natural rock formation in Laxmanpur beach number 2. This is a rocky beach with coral formations which are clearly visible during low tide. The place is again full of beautiful corals with marine life as Sea Cucumber, Star Fish, Crabs etc. Place is accessible only during Low tide as water level rise during high tide makes it difficult to cross to other side. It is best to visit the place with a guide which is easily available at the beach so that one can understand the place in greater detail.

From Laxmanpur beach we will go to Bharatpur Beach which is a stunning shoreline famous for its pristine white sands and clear blue waters that surround the Neil Island. In spite of its proximity to Port Blair, it is seldom crowded and provides for a tranquil atmosphere for holidaying. If we cannot do the water activities in Elephant Bridge the we can explore the water activities as the shore has shallow water with coral reefs that make the beach a famous spot for water sports like snorkelling and scuba diving other than beach exploration and sunbathing. But we will prefer to do the water activities in Elephant beach at Havelock.

Bharatpur beach is famous for local shopping. In my experience pearls and corals are very good and original and cost is affordable.

From Bharatpur beach we will take Cruise Ship ride back to Port Blair and will stay in Sinclair's at Port Blair.

11th morning Hotel check out after breakfast and drop off at Airport.
