

# IISER Kolkata Ambassadors Program

- Visit your old school or college
- Give a talk on your work or on a scientific topic
- Include a set of slides on IISER Kolkata
- Submit a short report

We are happy to announce that we are starting a new initiative called the **IISER Kolkata Ambassadors Program**. Any of you can volunteer for this program. The rules are simple:

You should deliver a talk either on your own work, on work being done in IISER Kolkata, or on a general scientific topic that would be of interest to your audience, at your alma mater (school or college).

You will be responsible for making the arrangements with your school for the same.

Please inform the DOIRO office about the talk in advance, so that we can announce it on social media.

It can be a physical talk or a webinar.

You will have to include a set of slides on IISER Kolkata, which would be prepared by the DOIRO section and made available to anyone on request.

Please ensure that you have a few photos taken of the school, of yourself giving the talk of the audience.

Submit a report including the photos, with short titles; a letter from the head of the institution, stating that you have delivered the talk; an image of your title slide and a short write-up of 200-300 words, which can be put up on the website. Please include your name, roll number, department, name of supervisor in case you are a PhD student, in the report.

We will share these reports on the website and news and photos from these on social media. Each student completing the formalities of such an outreach event will receive a certificate from the DOIRO office, being named an IISER-K Ambassador.
