Summer Camp 2026

Director's Message

It is my great pleasure to welcome you to IISER Kolkata for this Summer Camp. I extend my warm greetings to all the bright young minds from the Kendriya Vidyalayas of the North-Eastern States who have joined us for this exciting learning experience.

Your presence here reflects your curiosity, enthusiasm, and willingness to explore the fascinating world of science. At IISER Kolkata, we believe that science is not merely a collection of facts but a way of thinking—a journey of asking questions, seeking evidence, and discovering new possibilities. This camp has been designed to provide you with hands-on exposure to scientific inquiry, interactions with researchers, and opportunities to experience the excitement of learning beyond the classroom.

The North-Eastern region of our country is known for its rich natural heritage, cultural diversity, and immense intellectual potential. We hope that this camp will inspire you to nurture your scientific temperament, think creatively, and develop the confidence to pursue your dreams. Every great scientific discovery begins with curiosity, and each one of you has the potential to contribute meaningfully to society through knowledge, innovation, and perseverance.

I encourage you to actively participate in all the sessions, engage with our faculty members, researchers, and fellow participants, and make the most of every opportunity to learn, collaborate, and grow. Equally important, take time to build friendships, exchange ideas, and enjoy the vibrant academic environment of IISER Kolkata.

I wish you a rewarding, memorable, and inspiring stay with us. May this summer camp ignite a lifelong passion for science and empower you to become the innovators, researchers, and leaders of tomorrow.

Prof. Sunil Kumar Khare
Director, IISER Kolkata
